CyberTech

Systems and Software Limited

LETTER TO SHAREHOLDERS

Dear Fellow Shareholders,

I am pleased to share my thoughts with you on the overall performance of our company for the Financial year 2018 (April 2017-March 2018). This was the year of substantial directional change for CyberTech which is not adequately represented just in our financial results. The Company is directionally moving from an "IT Services only firm" into a "Geospatial Platform and Solutions Provider" space. We have elected to make substantial investments in senior people, IT systems and software platform development to help achieve this goal. I believe we have an opportunity to be the leader in next-generation spatial analytics and we have the partnerships with the World's leader in this space, ESRI®.

Financial Results

Let me first share key financial highlights of FY18 with you:

- Our total revenue stood at ₹952.1 million in FY18 in rupee terms. This is a small reduction from ₹973.9 million in FY17. This was primarily because of reduction in GeoCivic India business. Please note that our revenue grew at a CAGR of 11.1% from FY16 to FY18
- Our EBITDA for FY18 was at ₹114 million (12.0% of total revenue) versus ₹187 million in FY 17. This net effect of ₹73 million was due to extraordinary items (Interest on income-tax refunds) in FY 17 and in FY 18 had a provision for doubtful debts of GeoCivic. Despite these impacts, the EBITDA grew at a CAGR of 12.4% from FY16 to FY18.
- Our net income for FY 18 was ₹ 32.8 million versus Rs 94.1 million in FY 17
- In the 4th quarter of FY 18, the above results were discussed. We continue to have a strong balance sheet with reliable long term profit streams and no debt.
- Our US based business maintained growth of 10% for the year, while India based operations decreased as a result of the decision to eliminate new services relating to GeoCivic and focus on software sales through channel partners.
- Board of Directors recommended a dividend of Re.1/- per equity share for FY18.

We have seen growth in USA business since we increased our focus on spatial analytics platforms. US business revenue grew by 25% compared to FY15-16. However, this growth and profits were partially offset during the year by costs and reductions in India Led GeoCivic revenue.

Spatialitics, LLC.

In line with the strategy to invest in the development of Cloud-based Spatial Analytics Platforms, we incorporated Spatialitics LLC, a new wholly owned subsidiary of CyberTech in Delaware (US). This strategic step will help us focus on growth opportunities in the US market related to Solutions and Platforms for Spatial Analytics and to hold our Intellectual Property created in connection with these activities. With our Spatial Analytics platform, our focus is to make our products available and sold through our strategic and channel partners.

Our software Platform GeoShield, CyberServe Utilities and Health will move into the Spatialitics umbrella. They will be rebranded and developed around a common fabric architecture and ESRI® technologies. I am excited about the opportunities ahead for us, please see <http://www.sptialitics.com>.

We continue to work with our strategic partners – Cisco®, Microsoft®, ESRI® and SAP®. During the year, we signed an OEM partnership with ESRI® for our Public Safety Platform - GeoShield. Several other such relationships are in the pipeline. Our partnerships and alliances are the key growth driver in Company's future growth.

During the year, the Company hired proven senior professionals for the Products and Platform business. This will augment the transformation and development of CyberTech's spatial analytics platform. This expertise will help us strengthen our platform architecture and make our offerings next-gen and IoT ready and open new channel models.

Business Status

CyberTech's Software Application Development and Application Management Outsourcing (AMO) groups are executing flawlessly. The leaders of this team are committed long term players and grow their business YoY. CyberTech's SAP® and S/4HANA practices continue to be one the largest opportunities for the Company. We have strengthened our SAP® team and created focused areas around SAP® Cloud Platforms and S/4HANA. I am working with SAP® senior leadership to strengthen our relation to further our business interests. This line of business is generating steady profits for the Company that allows us investing in Spatialitics. In FY18, we participated and co-sponsored the Geospatial World Forum 2018 Conference and showcased our Geospatial platforms and solutions for smart Cities. We also participated in Sapphire 2018, largest SAP® user event. We presented our Healthcare Analytics Platform CyberServe for Population Health in ESRI® UC 2018.

According to GeoBuiz 2018 report, the global geospatial industry is growing steadily mainly driven by rising democratization of geospatial information and its integration with digital technologies. New emerging technologies like Cloud, IoT, Big Data, Artificial intelligence and Blockchain are playing multiplier roles in expanding the business portfolio of the geospatial industry. Your Company has rightly set a path in this transitioning phase.

Shri A.V. Rajwade's contributions

Shri A.V. Rajwade (AVR) passed away in February this year. He was a giant who taught me and helped CyberTech with passion. He was a teacher at heart, a guru at ForEx and risk management and a man of great detail. I have had the opportunity to work with some great people. The most noticeable difference between them and AVR was his focus on excellence. No small thing matter missed his sight while he was firmly focused on the corporate big picture. I never had a better mentor in my life. CyberTech and I will miss his counsel, warmth and friendship.

Other matters

As the largest shareholder, I am pleased at the overall status of our business. The intrinsic value of our company is substantial. Our US business continues to grow and is more profitable. Our customers are giving us more work and our partners SAP® and ESRI® are behind CyberTech. Our SAP® and AMO business are growing. Our future is in Spatial Analytics and as a platform led company.

The Company adheres to high level of transparency and corporate governance. We have an eminent Board of Directors such as Mr.Sudhir Joshi, Dr.N.L.Sarda, Dr.Shreepad Karmalkar, Mr.M.P.Bharucha, Mr. Wim Elfrink and Ms. Amogha Tadimety. This year we have a new inclusion to our Board, Ms. Angel Wilcox Esq. Ms. Wilcox is an IP and trademark attorney and am pleased to have her accept the position. I am grateful for their association with CyberTech and me. I would like to thank M/s. Vispi Patel and Associates, Chartered Accountants for their valuable help. I thank Mr.M.P.Bharucha Esq. of M/s. Bharucha and Partners for his friendship, help and counsel. I thank Shri.B.V.Goud, my Special Advisor, for his help to our Company.

I would like to thank all our shareholders, customers and employees, who have reposed trust in us and look forward to your continued support to help keep the company on the growth path in the coming years.

With regards,

Vish Tadimety
Chairman

The Board of Directors of your Company recommends the resolution as set out under Item No. 6, in relation to the re-appointment and remuneration paid to Mr. Ramasubramanian Sankaran as an Executive Director, for the approval of the shareholders of the Company, to be passed as a Special Resolution.

Copy of all the documents mentioned herein above would be available for inspection by the shareholders at the Registered Office of the Company between 11:00 a.m. and 1:00 p.m. on all working days from the date hereof up to the date of the AGM.

Item No. 7 & 8

In terms of Foreign Exchange Management Act, 1999, the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017 and the Consolidated FDI Policy 2015, and the re-enactment and Amendments thereof, Foreign Portfolio Investors ("FPIs") registered with the Securities and Exchange Board of India ("SEBI") can acquire and hold on their own account and on behalf of their SEBI approved sub-accounts together, up to an aggregate limit of 24% (Twenty-four per cent) of the paid up Equity Share capital of an Indian company. The said Regulations further provide that the limit of 24% (Twenty-four per cent) can be further increased up to the sectoral cap/statutory ceiling as applicable, by passing a resolution of the Board, a Special Resolution to that effect by its members and followed by necessary filings with the Reserve Bank of India ("RBI").

Similarly under Portfolio Investment Scheme, a Non-resident Indian (NRI) or an Overseas Citizen of India (OCI) may purchase or sell Capital Instruments of a listed Indian company on repatriation basis, on a recognised stock exchange in India, subject to the following conditions:

(1) NRIs or OCIs may purchase and sell Capital Instruments through a branch designated by an Authorised Dealer for the purpose;

(2) The total holding by any individual NRI or OCI shall not exceed 5 percent of the total paid-up equity capital on a fully diluted basis or should not exceed 5 percent of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed ten percent of the total paid-up equity capital on a fully diluted basis or shall not exceed ten percent of the paid-up value of each series of debentures or preference shares or share warrants;

Provided that the aggregate ceiling of 10 percent may be raised upto 24 percent if a special resolution to that effect is passed by the General Body of the Indian company.

As of March 31, 2018, holding by Foreign Portfolio Investors viz. FPIs (both Foreign Portfolio Investors and FIIs) and NRIs/OCIs under Portfolio Investment Scheme were less than the maximum ceiling of 24% and 10% of the paid up Equity Share capital of the Company.

Considering the investments by FPIs and OCIs/ NRIs will give greater advantage to the investors at large, it is proposed to enable FPIs, OCIs (Overseas Citizens of Indian Origin) and NRIs to invest upto the permissible limits viz. (1) To increase the present limit of FPIs shareholding in the Company upto 49% (Forty-nine per cent) of paid up Equity Share capital of the Company; and (2) To increase the present limit of NRIs/OCIs shareholding in the Company upto 24% (Twenty-four per cent) of paid up Equity Share capital of the Company.

The Board of Directors at their meeting held on August 13, 2018, approved, subject to the consent of the Members, to increase the aggregate permissible limit of FPI equity shareholding of the Company upto 49% and increase the aggregate permissible limit of NRIs /OCIs in equity shareholding of the Company upto 24% of the paid-up Equity Share Capital of the Company, in accordance with applicable laws.

Accordingly, the resolutions set out at item No. 7 & 8 of this Notice are proposed to enable the FPIs and/or NRIs to acquire Equity shares of the Company upto the maximum revised ceiling limits as mentioned above under the Schemes for Foreign Portfolio Investors.

None of the Directors, Manager, Key Managerial Personnel(s) and their relatives are concerned or interested in the above resolution except to the extent of their shareholding in the Company.

The Board of Directors recommends the Item No. 7 & 8 to be passed by the members of the Company as Special Resolution.

BUSINESS OPERATIONS OVERVIEW AND OUTLOOKThe State of Company's Affairs:

CyberTech continued to be a trusted advisor for several global enterprises, helping them geo-enable and digitalize mission-critical business processes for users on and off the field. In terms of strategic partnership and alliances, CyberTech continued to work with its existing partners – Cisco®, Microsoft®, ESRI® and SAP®. It is expected that with the help of these alliances and partnerships, the Company will continue to lead business and revenue growth and increasing profitability with a continued focus on offshore revenue going forward.

In line with CyberTech's strategy to invest in Cloud-based Spatial Analytics Platform, Spatialitics LLC, a new wholly owned subsidiary is founded. This strategic step will help us to focus on growth opportunities related to GIS solutions and Spatial Analytics and to hold our Intellectual Property created in connection with these activities. As we transition to providing a Spatial Analytics platform, the focus is to make our products available through our channel partners.

During the year, the Company has hired some senior professionals who have impacted in the Products and Platform business in their earlier stint. This will augment the transformation and development of CyberTech's spatial analytics and IoT platform. Mr. Pankaj Srivastava, former Vice President of Cisco's software platform group, joined the Company as the Senior Vice President and C.T.O of Software Platforms. Pankaj will lead the transformation and development of CyberTech's spatial analytics and IoT platform.

During the year, CyberTech participated and co-sponsored the Geospatial World Forum 2018 Conference and showcased its Geospatial platforms and solutions for smart Cities. CyberTech's contribution to Ramakrishna Mission

▲ **FY 2017-18**

CyberTech contributed to Ramakrishna Mission for their set up of English Language Lab. This Lab facilitates the students to improve English Language standard through Technology intervention and collaboration with specialized agencies. The students are from rural areas where the English Proficiency is absent. They are taught in their Mother Tongue. In today's era English Language enables each student competitive and face the outer world with confidence. In order to prepare students to take the medium in English an English Laboratory has been planned by the Ramakrishna Mission. This Lab will help the students to learn the English Language deeper apart from their normal studies. CyberTech has contributed for the infrastructure set-up of around 16 classrooms.

▲ **FY 2016-17**

Previous year, CyberTech contributed for conversion of classrooms into digital classrooms. This technology enhanced the move towards student-centric learning system. The concept of Digital classrooms enables teacher to become a facilitator and help students to develop their knowledge with strong foundation and improve their competitive abilities. CyberTech contributed towards converting 16 normal classrooms into 16 interconnected smart classrooms.

CyberTech is pleased to inform that the center was inaugurated on August 10, 2018:

F. A description of the method and significant assumptions used during the year to estimate the fair value of options including the following information:

Fair Value methodology for the option:

The fair value of options used to compute net income and earnings per equity share have been estimated on the dates of each grant within the range of ₹10/- to ₹90/- using the Black-Scholes pricing model. The Company estimated the volatility based on the historical share prices. The various assumptions considered in the pricing model for the options granted under ESOP are:

Particulars	March 31, 2018	March 31, 2017
Dividend yield	0.03%	0.04%
Expected volatility	60%	58%
Risk-free interest rate	6.86%	6.70%
Expected life of option	7 years	7 years

G. Impact of Fair value method on Net Profit and EPS

Had the compensation cost for the Company's Stock Option Plan outstanding been determined based on the fair value approach, the Company's net profit income and earnings per share would have been, as indicated below:

(₹ in Lakhs)

Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017

1. INDUSTRY OVERVIEW

Global Economy & IT

Global growth accelerated markedly in 2017, supported by a broad-based recovery across economies and it is expected to edge up in 2018.

With the constant recovery in global trade and investment along with increased consumer demand, the International Monetary Fund (IMF) projected the global growth to inch up from 3.8% in 2017 to 3.9% in 2018 and 2019. It also upgraded its forecast for United States (US) growth in 2018 to 2.9%, up from 2.7% previously forecasted mainly aided by lower unemployment rate and President Trump's tax reform. Advanced economies grew at 2.4% in 2017 and are projected to grow at 2.2% in 2018 before easing to a 2% in 2019, as most of the central banks are gradually removing monetary stimulus. Emerging Market and Developing Economies (EMDEs) grew at 4.3% in 2017 and is expected to strengthen to 4.5% in 2018, before reaching to 4.7% in 2019. After a short slowdown due to demonetization and GST implementation, India reclaimed its fastest growing economy tag. India GDP grew at 6.4% in 2017 and is estimated to grow at 7.4% in 2018 and 7.8% in 2019.

However, IMF has also listed several factors that are expected to drag the projected growth such as rising protectionism, geopolitical risks, trade war, financial market volatility and policy uncertainties. Experts are of opine that policymakers should seize this opportunity to bolster growth, make it more durable and equip their governments better to counter the downside risks going forward. It is today's demand to deploy fiscal, monetary and structural policies comprehensively and collectively for economies to grow effectively and ensure that the benefits from growth and globalisation are more widely shared.

State of the Technology Industry

Today, the globe is becoming digital and timely, accurate, reliable information is available at the push of a button. 2018 is appearing to be on the cusp of profound change. The information technology (IT) industry is 'reinventing' itself to become 'Digital Economy'. This technology reinvention has brought the new age technologies – SMAC, Artificial Intelligence and many more to become core digital services. Across industries, clients are aggressively adopting these transitions and becoming the part of the digital economy. CIOs are investing in the technology agenda for winning, serving and retaining customers. IT companies have started to grasp the disruptive nature of this new era in enterprise technology and are using the tools of the cloud era to redefine their organization and expand their IT capabilities.

According to NASSCOM, the global technology industry stood at \$1.3 trillion in 2017 witnessing a growth of around 4.3%. The global IT services and BPM market grew by 2.4% and 3.4% respectively in 2017 over 2016. The growth was driven by the continuous need for digital solutions and greater implementations of robotics, automation, Internet of Things (IoT), SMAC (Social, Mobility, Analytics, Cloud). The total addressable market for global IT-BPM industry is estimated to expand to around \$4 trillion by 2025 driven by adoption of digital technologies.

According to Gartner, worldwide IT spending is projected to increase by 6.2% over 2017, reaching \$3.7 trillion in 2018. Spending in IT services segment is expected to grow by 7.4% in 2018, up from 4.4% in 2017 to \$1,003 billion. Enterprise software spending is estimated to witness the highest growth of 11.1% to touch \$391 billion in 2018. BI and analytics software market is expected to climb up to \$22.8 billion by 2020 from \$18.3 billion in 2017 mainly driven by the inflow of new customers, high analytics accessibility, and real-time data processing. The software industry is expected to continue capitalizing on the evolution of digital business.

According to Research and Markets report, the global advanced analytics market is expected to grow at a CAGR of 9.39% during the forecast period 2017 – 2021. The increased shift of big data to cloud and rise in adoption of advanced analytics are key propelling factors for the growth outlook. Advanced analytics helps to achieve cost effectiveness, significant revenue growth and can be used across every industry and verticals. For instance, the healthcare industry uses advanced analytics to improve clinical performance. These solutions are used across the retail sector as they provide an insight into consumer buying behaviour and also help in merchandise planning.

Today, in all aspects - economic, technology, demographics and consumer preferences - technology has transformed the overall business environment. Digitalization, Cloud computing, Internet of Things, agile entrepreneurial ecosystem will continue to dominate the industry in coming years.

Indian Market

India is on the way to become digital economy backed by government's 'Digital India' and 'e-governance' reforms. The GST implementation is another important digital initiative taken by the government. The information technology (IT) industry seems to be recovering from some key issues such as slowdown in technology spending by banking and financial companies and uncertainty over work visa rules in the United States. Nasscom has projected the \$167 billion India's IT-BPM industry in 2018 to become \$350 billion industry by 2025. The overall IT industry is changing drastically to adapt the challenges flowing from marketplace shifts and changing needs of customers.

Geospatial Industry

The geospatial industry, in a nascent stage for decades, is now on a route of aligning itself with the mainstream market. Over last few years, the geospatial market saw a paradigm shift. According to GeoBuiz 2018 report, the global geospatial industry stood at US\$ 299.2 billion in 2017 (11.5% CAGR between 2013 to 2017) and is projected to reach US\$ 439.2 billion by 2020, growing at a CAGR of 13.6% between 2017 to 2020 majorly driven by increasing democratization of geospatial information and its integration with digital technologies. Innovative technologies like Cloud, IoT, Big Data,

Artificial intelligence and Blockchain are playing multiplier roles in expanding the business portfolio of the geospatial industry.

Globally, the geospatial industry is witnessing an exceptional improvement across geographies. As per GeoBuiz report 2018, the North America is the largest geospatial market with an estimated market share of 34.5% in 2017 and is projected to grow at a CAGR of 10.2% between 2017-2020. As the 'location' component gets embedded in every sphere of the economy, the North America market is expected to continue the foremost beneficiaries

driven by its strong institutional capacity, robust infrastructure, mature policy framework and advanced user adoption level.

With the number of industries, using location data, on the rise, the geospatial industry is set to grow in India. According to Government of India's Ministry data, the \$4 billion Indian geospatial market in 2016 is estimated to become a \$20 billion market by 2025, at a CAGR of 12 to 15% during the forecasted period. BFSI, construction and agriculture sectors are using geospatial services in a larger way in India.

Recently, rising investments by government and private sector user segments, increasing digital services and innovations in geospatial technologies have created new avenues for geospatial applications. Satellite imageries, GIS/Spatial Analytics, Unmanned Aerial Vehicles (UAVs), GNSS (Global

Navigation Satellite Systems) and Positioning and 3D scanning are being used rigourously across key industries and verticals. Geospatial technologies are significantly enhancing the quality of decision support systems resulting in more effective business and public governance processes.

2. Business Overview

CyberTech continued to be a trusted advisor for several global enterprises, helping them geo-enable and digitalize mission-critical business processes for users on and off the field. In terms of strategic partnership and alliances, CyberTech continued to work with its existing partners – Cisco®, Microsoft®, ESRI® and SAP®.

In line with CyberTech's strategy to invest in Cloud-based Spatial Analytics Platform, Spatialitics LLC, a new wholly owned subsidiary is founded. This strategic step will help us to focus on growth opportunities related to GIS solutions and Spatial Analytics and to hold our Intellectual Property created in connection with these activities. As we transition to providing a Spatial Analytics platform, the focus is to make our products available through our channel partners.

United States continued to be the major revenue contributor with a contribution of 91% towards operating revenue while 9% accounted for India. Company continue to see steady growth from US business which grew approximately 10% on year-on-year basis in FY18.

During the year, CyberTech participated and co-sponsored the Geospatial World Forum 2018 Conference and showcased its Geospatial platforms and solutions for smart Cities. Company also participated in Sapphire 2018, largest SAP® user event.

Quality

At CyberTech the management and employees are committed to delivering solutions and IT services that consistently exceed client expectations and delight our clients through continued Quality improvements.

CyberTech has achieved ISO 9001-2008 and CMMI Level 3 standards for offshore development activities.

3. Human Resources

The company believes that effective human resources administration is the best way to ensure that personnel needs are well integrated and amalgamated in to long term organizational goals. Effective employee management tops the priority of the Human Resource Department of the Company.

The human resource strategy is focused on creating a performance driven environment in the company, where innovation is encouraged, performance is recognized and employees are motivated to realize their potential.

HR is not only continuously acquires right people for right place but groom them. CyberTech Management is constantly in touch with employees to boost their morals. Training programs are arranged to improve their skill sets which in turn helps the Company to efficiently achieve their targets, to provide timely support to customers and follow up with the clients to support their software platforms.

During the year, the Company has hired some senior professionals who have impacted in the Products and Platform business in their earlier stint. This will augment the transformation and development of CyberTech's spatial analytics and IoT platform.

The Company and its wholly owned 100% subsidiary have 385 permanent employees on its payroll.

4. Opportunities and Threats

Opportunities:

Spatial Analytics is a new area that is shaping up and growing very fast riding on the fact that it is at the heart of IoT, Smart Cities and Digital Transformation. Spatial Analytics lead to intelligent machine level decision making. CyberTech has the opportunity and continues to focus on to be the Leader in Location and Spatial Analytics.

CyberTech has Alliance partnerships with several leading technology companies including SAP®, ESRI®, Cisco® and Microsoft®. The Company is well poised to take advantage of the new advanced technologies provided by these alliance partners. These technology alliance partners expect to see major technology opportunities for their customers in the United States.

CyberTech continues to focus on Enterprise Solutions offerings. Any increase in offshore related services should have the effect of increased Company margins and profitability and increased longevity of business contracts. The Company intends its growth share with the existing clients which will have a supplemental effect of reducing cost of overhead as well as the delivery cost.

Threats:

The economic uncertainty of the current worldwide markets makes the future less predictable than in the past due to the current demand environment. Worldwide IT spending growth has significantly reduced with budget cutbacks on IT spending by customers, buyers in "wait and watch" mode, government units significantly cutting budgets to match expected revenue shortfalls and delayed decision making. Reduction in new client additions, absence of large deals, vendor consolidation, downsizing for greater efficiencies and cost savings as well as pricing pressures — in both onsite and offshore realization put greater pressures on revenues and margins in the last fiscal year and are expected to track lower for some time.

The US market is under increasing pressure from general economic conditions as growth diminishes. US spending on off-shore services have slowed down in the face of these market conditions as well as the adoption of protectionist measures by policy makers. CyberTech is also subject to the threats of competing against much larger International IT service providers, the large global Indian IT service providers and more entrenched US and Global System integrators, many of which also provide services to established markets on an offshore basis. The good news is that, global sourcing is expected to increase as focus on cost and 'value' increases with buyers "stretching the dollar" to include greater value delivery.

As with other Indian IT Services companies, other general threats to the business continue to include competition among Information and Technology units in India for talented people, which has resulted in rising employee compensation packages and shrinking margins available to IT Companies. We are also seeing a potential backlash in the US from the increasing loss of employment due to outsourced services overseas, resulting in an impact on the country's immigration enforcement procedures.

5. Outlooks and Risks

Outlook:

Geospatial industry is on track to align itself with the mainstream technologies. Mainstreaming of the geospatial market has increased the demand for geospatial content and solutions across governments, businesses and consumers.

CyberTech is positioned rightly to transform itself from success to leadership. Over last few years, it has made significant investments in its research and development activities to stay competitive for future growth. The Company continued to remain focused on the Public sector and Enterprise SAP® and GIS custom technology applications.

During the year, Mr. Pankaj Srivastava, former Vice President of Cisco's software platform group, joined the Company as the Senior Vice President and CTO of Software Platforms. Pankaj will lead the transformation and development of CyberTech's spatial analytics and IoT platform. This addition to the leadership of the company is in line with its strategy of investing in building top-level talent to transform Company's spatial analytics and applications platform.

In terms of strategic alliances and partnership, CyberTech continues to work with existing alliances such as Cisco®, SAP®, Microsoft®, IBM® and ESRI®. It is expected that with the help of these alliances and partnerships, Company will continue to lead business and revenue growth and increasing profitability with a continued focus on offshore revenue going forward.

Risks:

Risk management program involves risk identification, assessment and risk mitigation. The Company has evolved following offerings.

1. Spatial Analytics Platform
2. Enterprise solutions

Each line of offerings has been given full operational freedom to improve the business but their margins are constantly monitored by the Management and Board of Directors and Executive Committee. Each has been given targets and means by way of budgets to improve their efficiency and healthy strategic growth of the Company.

Some of the key strategic risks the company faces, their impact and corresponding risk mitigation actions undertaken by the company are discussed in the table

Key Risks	Impact on CyberTech	Mitigation
Lack of Diversification	The Company's potential for growth is driven by one market segment, namely IT services, with a focus on several technology areas.	Company management has purposely remained focused in the near term as opposed to spreading its manpower too thin to achieve its goals. The company is also taking measures to change the perspective from the pure services providers company to market Product and IPs.
Excessive dependence on one geographic segment	A large percentage of company's revenue comes from USA, heavy dependence on this one geographic segment could lead to volatility because of the economic and political situation there.	The Company has successfully penetrated into the local Indian market apart from the operations established in USA. It is exploring the possibilities to penetrate its Geoshield Product in other countries.

Legal and Statutory Risks	The company's international operations are subject to local legal and statutory risks including compliance with local laws and regulations, one of which is compliance with immigration laws and regulations, which may change from time-to-time. Other risks include contractual risks when delivering complex technology solutions.	As of the date of this report, the company is not aware of any non-compliance with local laws or regulations that would have a material impact on Financial Statements.
Risk of attracting and retaining of IT Professionals in a highly competitive environment	In the IT services industry, people are the most valuable assets. Attrition of the key technical talent is one of the major risks.	The company reviews its compensation policies regularly to determine that compensation is competitive with the market conditions. The company also determines that there is a defined career path for all employees and the work environment provided to all employees is very competitive and is of very high standard.
Currency Risk	The changes in currency rate between Indian Rupees and US dollars have been a major cause of concern. The fluctuation of rates coupled with the shocks emerging from various parts of the world relating to the economic meltdown has increased the currency risk.	The Company has framed its hedging policy and Management and the Board of Directors monitor the currency position from time to time.

6. INTERNAL CONTROL SYSTEM & THEIR ADEQUACY

The Company has Internal Control procedures commensurate with its size and nature of the business. These business procedures ensure optimum use and protection of the resources and compliance with the policies, procedures and statutes.

The Internal Control Systems provide for well-defined policies, guidelines and authorizations and approval procedures. The operation and monitoring of the system of internal control is entrusted to employees who possess the necessary skills, technical knowledge, understanding of the Company, industries and markets in which it operates.

An Independent Audit Committee, on quarterly basis, reviews adequacy and effectiveness of internal controls and provides observations/recommendations. The discussions are also made with Internal Auditors and the Internal Audit Report is also reviewed by the Committee.

7. FINANCIAL CONDITION

Your Company had consolidated revenues of Rs 95.21 Crores and Rs 3.17 Crores net profit in the current year. Company expect to achieve significant growth in revenue and net income in the coming years. The detailed financial condition is stated in Board's Report which forms part of Annual Report.

8. Cautionary Statement

Statements in this document/discussion relating to future status, events, or circumstances, including but not limited to statements describing the Company's objectives, projections, estimates and expectations maybe 'forward looking statements' within the meaning of applicable laws and regulations. Such statements are subject to numerous risks and uncertainties and are not necessarily predictive of future results. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include economic developments, particularly in the USA & improvements in the state of Information Technology Services markets, changes in the Government regulations in India & USA, tax laws & other incidental factors.

CYBERTECH SYSTEMS AND SOFTWARE LIMITED
STANDALONE
FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR 2017-18

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF CYBERTECH SYSTEMS & SOFTWARE LIMITED

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone financial statements of **CYBERTECH SYSTEMS & SOFTWARE LIMITED** ("the Company"), which comprise the Standalone Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash flows, the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Standalone Ind AS Financial Statements").

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act and relevant rules thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Act, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018 and its profit (including other comprehensive income), its cash flows and changes in equity for the year ended on that date

Other Matters

Opening balances have been considered based on the audited financial statements prepared under previous Generally Accepted Accounting Practices (Previous GAAP) issued by the other auditors whose unqualified audit report dated 10th May, 2017 have been furnished to us. The differences arise from transition from previous GAAP to Ind AS have been derived from such audited financial statements.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

As required by Section 143 (3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Standalone Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Cash flows and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors as on 31st March, 2018 and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018, from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (g) With respect to other matter to be included in the Auditor's Report in accordance with the Rule 11 of the Companies (Audit and Auditors) Rules, 2014 , in our opinion and to the best of our information and according to the explanations given to us :
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Ind AS financial statements- Refer Note 31 to the Standalone Ind AS financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

ANNEXURE REFERRED TO IN PARAGRAPH "REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS" OF OUR REPORT TO THE MEMBERS OF "THE COMPANY" FOR THE YEAR ENDED 31ST MARCH, 2018

On the basis of such checks as we considered appropriate and according to the information and explanations given to us during the course of our audit, we state that:

1. a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment (fixed assets).
- b) The Company has a regular programme of physical verification of its property, plant and equipment (fixed assets) by which all property, plant and equipment (fixed assets) are verified in a phased manner, over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and nature of its assets. Pursuant to the program, certain property, plant and equipment (fixed assets) were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- c) Based on the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
2. The Company being a service Company, primarily rendering information technology services, it does not hold any physical inventories. Accordingly, the provisions of clause 3(ii) of the Order are not applicable to the Company.
3. The Company has not granted any loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clause 3(iii) of the Order are not applicable to the Company.
4. The Company has not granted any loans, made investments, provided guarantees and security during the year. Accordingly, the provisions of clause 3(iv) of the Order are not applicable to the Company.
5. No deposits within the meaning of directives issued by RBI (Reserve Bank of India) and Sections 73 to 76 or any other relevant provisions of the Act and rules framed there under have been accepted by the Company.
6. According to the information and explanations given to us, the Central Government has not prescribed maintenance of cost records under clause (d) of sub-section (1) of Section 148 of the Act in respect of Company's products/services. Accordingly, the provisions of clause 3(vi) of the Order are not applicable to the Company.
7. a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company is generally regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income- tax, sales-tax, Goods and service tax, duty of customs, duty of excise, value added tax and other statutory dues applicable to the Company with appropriate authorities. No undisputed amounts in respect of the aforesaid statutory dues were outstanding as at the last day of the financial year for a period of more than six months from the date they became payable.
- b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no dues of income tax, sales tax, Goods and service tax, duty of customs, duty of excise and value added tax which have not been deposited on account of any dispute.
8. The Company has not defaulted in repayment of loans or borrowings to banks during the year. The Company has not taken any loans or borrowings from financial institution, government and debenture holders during the year.
9. The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) or term loan during the year. Accordingly, the provisions of clause 3 (ix) of the Order are not applicable to the Company.
10. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of fraud by or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of such case by the management.
11. According to the information and explanations given to us and based on examination of records of the Company, managerial remuneration has been paid or provided for during the year in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V of the Act.
12. In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company. Therefore, the provisions of clause 3(xii) of the Order are not applicable to the Company.
13. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing

practices in India and according to the information and explanations given to us, all transactions with the related party are in compliance with Section 177 and 188 of the Act and the details have been disclosed as required by the applicable Ind AS in Note 32 to the Standalone Ind AS Financial Statements.

14. The Company has not made preferential allotment or private placement of shares during the year.
15. Based on the information and explanations given to us, the Company has not entered into any non-cash transactions prescribed under Section 192 of the Act with directors or persons connected with them during the year. Therefore, the provisions of clause 3(xv) of the Order are not applicable to the Company.
16. In our opinion, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Therefore, the provisions of clause 3(xvi) of the Order are not applicable to the Company.

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Act

We have audited the internal financial controls over financial reporting of **CYBERTECH SYSTEMS & SOFTWARE LIMITED** ("the Company") as of March 31, 2018 in conjunction with our audit of the Standalone Ind AS Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has broadly, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to financial statements for the year ended March 31, 2018

'NOTE '1'

A. CORPORATE INFORMATION:

"Cybertech Systems and Software Limited (the 'Company') was incorporated on January 19, 1995. Along with its subsidiary in USA, the Company provides Information Technology services to customers primarily in USA and India with focus on next-generation geospatial, networking and enterprise IT solutions. The Company offers services that span across all major industries including government, education, utilities, public safety & homeland defence, technology, telecom, retail, healthcare, and manufacturing. The Company is focused on delivering its development and support projects on an offshore basis.

The Company is a public limited company incorporated and domiciled in India and has its registered office in Thane, India. The Company has its primary listings on the BSE Limited and National Stock Exchange Limited in India."

B. SIGNIFICANT ACCOUNTING POLICIES:

(i) Basis of Preparation of Financial Statements:

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other related provisions of the Act.

These financial statements for the year ended 31st March, 2018 are the first financials with comparatives, prepared under Ind AS. For all previous periods including the year ended 31st March, 2017, the Company had prepared its financial statements in accordance with the accounting standards notified under Companies (Accounting Standard) Rule, 2006 (as amended) and other relevant provisions of the Act (hereinafter referred to as 'Previous GAAP') used for its statutory reporting requirement in India.

Refer Note 43 for the details of significant first-time adoption exemptions availed by the Company and an explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, performance and cash flows.

The financial statements of the Company are prepared on the accrual basis of accounting and Historical cost convention except for the following material items that have been measured at fair value as required by the relevant Ind AS:

- (i) Certain financial assets and liabilities are measured at Fair value - Refer note no.1(B)(vii)
- (ii) Defined benefit employee plan - Refer note no.1(B)(xi)
- (iii) Derivative Financial instruments - Refer note no.1(B)(vii)

The accounting policies are applied consistently to all the periods presented in the financial statements. All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

The financial statements are presented in INR, the functional currency of the Company. Rounding of amounts All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

(ii) Use of Estimates and judgments:

The preparation of the financial statements requires the Management to make, judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates. The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the management and are based on historical experience and various other assumptions and factors (including expectations of future events) that the management believes to be reasonable under the existing circumstances. Actual results may differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

Critical accounting judgements and key source of estimation uncertainty

The Company is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. The estimates and underlying assumptions are reviewed on an on-going basis.

- (a) Recognition and measurement of defined benefit obligations, key actuarial assumptions - Refer Note no. 1(B)(xiii)
- (b) Estimation of current tax expenses and payable - Refer note no. 1(B)(xii)

(iii) Property, plant and equipment (PPE)

Property, plant and equipment is stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes,

Notes to financial statements for the year ended March 31, 2018

after deducting trade discounts and rebates, any directly attributable costs of bringing the asset to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure are included in the assets carrying amount or recognized as a separate asset, as appropriate only if it is probable that the future economic benefits associated with the item will flow to the Company and that the cost of the item can be reliably measured.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

(iv) Intangible assets

Intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

(v) Depreciation and Amortization:

(a) Property plant and equipment (PPE)

Depreciation is provided on a pro-rata basis on the straight line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

(b) Intangible assets

"The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives.

The amortisation period and the amortisation method for finite life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate. For indefinite life intangible assets, the assessment of indefinite life is reviewed annually to determine whether it continues, if not, it is impaired or changed prospectively based on revised estimates."

(vi) Financial Instruments:

Financial assets - Initial recognition:

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. On initial recognition, a financial asset is recognised at fair value, in case of Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost are recognised in the statement of profit and loss. In other cases, the transaction cost are attributed to the acquisition value of the financial asset.

Subsequent measurement:

Financial assets are subsequently classified as measured at:

- amortised cost
- fair value through profit & loss (FVTPL)
- fair value through other comprehensive income (FVTOCI)

The above classification is being determined considering the:

- (a) the entity's business model for managing the financial assets and
- (b) the contractual cash flow characteristics of the financial asset.

Financial assets are not reclassified subsequent to their recognition, except if and in the period the group changes its business model for managing financial assets.

(i) Measured at amortised cost:

Financial assets are subsequently measured at amortised cost, if these financial assets are held within a business module whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified date to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to financial statements for the year ended March 31, 2018

(ii) Measured at fair value through other comprehensive income (FVTOCI):

Financial assets are measured at FVTOCI, if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

(iii) Measured at fair value through profit or loss (FVTPL):

Financial assets other than equity instrument are measured at FVTPL unless it is measured at amortised cost or at FVTOCI on initial recognition. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised in the Statement of Profit and Loss.

Equity instruments:

"On initial recognition, the Company can make an irrevocable election (on an instrument-by instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to Statement of Profit and Loss on disposal of the investments.

Dividends on these investments in equity instruments are recognised in Statement of Profit and Loss when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognised in Statement of Profit and Loss are included in the 'Other income'."

Impairment

The Company recognises a loss allowance for Expected Credit Losses (ECL) on financial assets that are measured at amortised cost and at FVOCI. The credit loss is difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. This is assessed on an individual or collective basis after considering all reasonable and supportable including that which is forward looking.

The Company's trade receivables or contract revenue receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall, being simplified approach for recognition of impairment loss allowance.

Under simplified approach, the Company does not track changes in credit risk. Rather it recognizes impairment loss allowance based on the lifetime ECL at each reporting date right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

"For financial assets other than trade receivables, the Company recognises 12-months expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. If, in a subsequent period, credit quality of the instrument improves such that there is no longer significant increase in credit risks since initial recognition, then the Company reverts to recognizing impairment loss allowance based on 12 months ECL. The impairment losses and reversals are recognised in Statement of Profit and Loss.

For equity instruments and financial assets measured at FVTPL, there is no requirement of impairment testing."

Derecognition

"The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers rights to receive cash flows from an asset, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement.

In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Notes to financial statements for the year ended March 31, 2018

Financial Liabilities

Initial Recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial liabilities are initially recognised at fair value net of transaction costs for all financial liabilities not carried at fair value through profit or loss.

The Company's financial liabilities includes trade and other payables, loans and borrowings including bank overdrafts.

Subsequent measurement

Financial liabilities measured at amortised cost are subsequently measured at using Effective Interest Rate (EIR) method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Loans & Borrowings:

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using EIR method. Gains and losses are recognized in profit & loss when the liabilities are derecognized as well as through EIR amortization process.

Financial Guarantee Contracts

Financial guarantee contracts issued by the Company are those contracts that requires a payment to be made or to reimburse the holder for a loss it incurs because the specified debtors fails to make payment when due in accordance with the term of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee."

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Derivative financial instruments

The Company uses derivative financial instruments, such as forward foreign exchange contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value, with changes in fair value recognised in Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(vii) Fair Value Measurement

The Company measures financial instruments, such as, derivatives, investments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:"

- (i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- (ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Notes to financial statements for the year ended March 31, 2018

(iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above

(viii) Cash and Cash Equivalents:

Cash and Cash equivalents include cash and Cheque in hand, bank balances, demand deposits with banks and other short-term highly liquid investments that are readily convertible to known amounts of cash & which are subject to an insignificant risk of changes in value where original maturity is three months or less.

(ix) Foreign Currency Transactions:

"a) Initial Recognition

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss of the year.

b) Measurement of Foreign Currency Items at the Balance Sheet Date

Foreign currency monetary items of the Company are restated at the closing exchange rates. Non monetary items are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising out of these transactions are charged to the Statement of Profit and Loss."

(x) Revenue Recognition:

"Revenue is measured at the value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates, discounts, and amounts collected on behalf of third parties.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and specific criteria have been met for each of the Company's activities as described below."

Rendering of Services

Income from software development, consulting and customer support services is recognized as and when rendered in accordance with the terms of the contract. Revenue from fixed price contracts with milestone billings and fixed time frame contracts are recognized as per the proportionate completion method.

Interest

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable and based on Effective interest rate method.

Dividend

Dividend Income is recognized when right to receive the same is established.

(xi) Employee Benefits:

"The Company has provides following post-employment plans:

(a) Defined benefit plans such a gratuity

(b) Defined contribution plans such as Provident fund

a) Defined-benefit plan:

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plan is the present value of defined benefit obligations at the end of the reporting period less fair value of plan assets. The defined benefit obligations is calculated annually by actuaries through actuarial valuation using the projected unit credit method.

The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

(a) Service costs comprising current service costs, past-service costs, gains and losses on curtailment and non-routine settlements; and

(b) Net interest expense or income"

Notes to financial statements for the year ended March 31, 2018

"The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and fair value of plan assets. This cost is included in employee benefit expenses in the Statement of Profit & Loss.

Re-measurement comprising of actuarial gains and losses arising from

- (a) Re-measurement of Actuarial(gains)/losses
- (b) Return on plan assets, excluding amount recognized in effect of asset ceiling
- (c) Re-measurement arising because of change in effect of asset ceiling

are recognised in the period in which they occur directly in 'Other comprehensive income'. Re-measurement are not reclassified to profit or loss in subsequent periods.

Ind AS 19 requires the exercise of judgment in relation to various assumptions including future pay rises, inflation and discount rates and employee and pensioner demographics. The Company determines the assumptions in conjunction with its actuaries, and believes these assumptions to be in line with best practice, but the application of different assumptions could have a significant effect on the amounts reflected in the income statement, other comprehensive income and balance sheet. There may be also interdependency between some of the assumptions.

b) Defined-contribution plan:

Under defined contribution plans, provident fund, the Company pays pre-defined amounts to separate funds and does not have any legal or informal obligation to pay additional sums. Defined Contribution plan comprise of contributions to the employees' provident fund with the government and certain state plans like Employees' State Insurance and Employees' Pension Scheme. The Company's payments to the defined contribution plans are recognised as expenses during the period in which the employees perform the services that the payment covers."

c) Other employee benefits:

(a) Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the obligation as at the Balance sheet date determined based on an actuarial valuation.

(b) Undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the period when the employee renders the related services."

(xii) Taxes on Income:

"Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

Current tax is based on taxable profit for the year. Taxable profit is different from accounting profit due to temporary differences between accounting and tax treatments, and due to items that are never taxable or tax deductible. Tax provisions are included in current liabilities. Interest and penalties on tax liabilities are provided for in the tax charge. The Company offsets, the current tax assets and liabilities (on a year on year basis) where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis or to realise the assets and liabilities on net basis."

"Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements. Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred tax assets are not recognised where it is more likely than not that the assets will not be realised in the future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date."

"Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Minimum Alternative Tax ('MAT') credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income-tax during the specified period. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income-tax during the specified period."

(xiii) Borrowing Costs:

"General and specific borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized as a part of Cost of that assets, during the period till all the activities necessary to prepare the Qualifying assets for its intended use or sale are

Notes to financial statements for the year ended March 31, 2018

complete during the period of time that is required to complete and prepare the assets for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are recognized as an expense in the period in which they are incurred.”

(xiv) Earnings Per Share:

Basic earnings per shares are calculated by dividing the net profit or loss after tax for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to the equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

(xv) Leases:

Where the Company is Lessee

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on accrual basis as per the terms of agreements entered with the counter parties.

Where the Company is Lessor

Leases in which the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in property, plant and equipment. The Company recognizes lease rentals from the property leased out, on accrual basis as per the terms of agreements entered with the counter parties. Costs, including depreciation, are recognized as an expense in the Statement of Profit and Loss.

(xvi) Unbilled Revenue

Revenue recognized over and above the billings on a customer is classified as “unbilled revenue”.

(xvii) Investment in Subsidiary

Investment in Subsidiary has been carried at Cost less Accumulated impairment, if any.

(xviii) Provisions, Contingent Liabilities and Contingent Assets:

“A provision is recognised if, as a result of a past event, the group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources or an obligation for which the future outcome cannot be ascertained with reasonable certainty. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.”

Contingent assets are neither recognized nor disclosed in financial statements.

D. Assumptions

With the objective of presenting the plan assets and plan liabilities of the defined benefits plans at their fair value on the balance sheet, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date. The significant actuarial assumptions were as follows

The significant actuarial assumptions were as follows:

	As at March 31, 2018	As at March 31, 2017
Financial Assumptions		
Discount rate	7.85%	7.20%
Salary Escalation Rate	2.00%	2.00%

Notes to financial statements for the year ended March 31, 2018

E. Sensitivity

The sensitivity of the overall plan liabilities to changes in the weighted key assumptions are:

	Impact on defined benefit obligation		
	Change in assumption	Increase in assumption	Decrease in assumption
Discount rate	1.00%	(14.53)	17.41
Salary Escalation Rate	1.00%	18.11	(15.46)

The sensitivity analyses above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity to the assumption, the same method used to calculate the liability recognised in the balance sheet has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

37 Financial Risk Management

Financial risk management objectives and policies:

The Company's business activities exposed it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's Management has the overall responsibility for establishing and governing the Company's risk management framework.

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

Risk	Exposure arising from	Measurement	Management
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities; working capital management
Credit risk	Cash and cash equivalents, trade receivables, Investments, loans and other financial assets measured at fair /amortised cost.	Ageing analysis/ Credit ratings	Diversification in various class of assets, credit limits and letters of credit
Market Risk - Foreign exchange	Financial assets and liabilities	Cash flow forecasting Sensitivity analysis	Hedging, Forex planning
Market Risk - Interest rate	Long-term borrowings at variable rates	Sensitivity analysis	Interest rate swaps

(A) Market Risk- Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. The Company is having short term borrowings from banks.

Notes to financial statements for the year ended March 31, 2018

(i) Exposure to interest rate risk - Financial liabilities

(₹ in Lakhs)

Particulars	As at March 31, 2018	As at March 31, 2017	As at April 01, 2016
Borrowings bearing variable rate of interest - Cash credits - short term in nature	1,092.54	996.45	1,064.67

Hence, the Company is not significantly exposed to the interest rate risk as working capital facility are, as per contractual terms, primarily of short term in nature.

(B) Market Risk- Foreign currency risk.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company has foreign currency trade receivables and is therefore exposed to foreign exchange risk. The exchange rates have been volatile in the recent years and may continue to be volatile in the future. Hence the operating results and financials of the Company may be impacted due to volatility of the rupee against foreign currencies.

(C) Credit risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. The Company is exposed to credit risk from its operating activities (trade receivables) and from its financing activities including investments in mutual funds, deposits with banks and financial institutions and debentures and bonds, foreign exchange transactions and financial instruments.

To manage the credit risk from trade receivables, the Company periodically assess financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly. The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period.

Credit risk from investments is managed by the Company's treasury in accordance with the board approved policy and limits.

To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- Actual or expected significant adverse changes in business,
- Actual or expected significant changes in the operating results of the counterparty,
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- Significant increase in credit risk on other financial instruments of the same counterparty,
- Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees

(D) Liquidity Risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time, or at a reasonable price. The Company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related such risk are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows. The Company's objective is to maintain at all times, optimum levels of liquidity to meet its obligations.

38 Financial instruments

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction

Notes to financial statements for the year ended March 31, 2018

between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions are used to estimate the fair values:

1. Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short term maturities of these instruments.
2. Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments is not materially different from their carrying amounts.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

The carrying amounts and fair values of financial instruments by category are as follows:

a. Financial assets

The Management assessed that fair value of cash and cash equivalents, trade receivables, investments in term deposits, loans, other financial assets (except derivative financial instruments), trade payables, and other financial liabilities (except derivative financial instruments) is considered to be equal to the carrying amount of these items due to their short-term nature.

c. Fair value estimation

For financial instruments measured at fair value in the Balance Sheet, a three level fair value hierarchy is used that reflects the significance of inputs used in the measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

- Level 1: quoted prices for identical instruments
- Level 2: directly or indirectly observable market inputs, other than Level 1 inputs; and
- Level 3: inputs which are not based on observable market data.

For assets and liabilities which are carried at fair value, the classification of fair value calculations by category is summarised below:

	Level 1	Level 2	Level 3	(₹ in Lakhs) Total
As at April 01, 2016				
Assets at fair value

43 First-time adoption of Ind AS

The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from 1st April, 2017, with a transition date of 1st April, 2016. The adoption of Ind AS has been carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and effective for the first Ind AS financial statements for the year ended 31st March, 2018, be applied retrospectively and consistently for all financial years presented. However, in preparing these Ind AS financial statements, the Company has availed of certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and Previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity).

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A. Optional Exemptions

(a) Deemed Cost

Ind AS 101 permits to measure all its property, plant & equipment and Intangible assets at their previous GAAP carrying value i.e. being deemed cost represented by Gross Block reduced by accumulated depreciation on April 01, 2016.

(b) Investment in subsidiaries

The Company has opted para D14 and D15 and accordingly considered the Previous GAAP carrying amount of Investments as deemed cost as at the transition date.

(c) Designation of previously recognised financial instruments

Paragraph D19B of Ind AS 101 gives an option to an entity to designate investments in equity instruments at FVOCI on the basis of the facts and

Notes to financial statements for the year ended March 31, 2018

circumstances at the date of transition to Ind AS. The company has opted to apply this exemption for its investment in equity Investments.

B. Mandatory Exceptions

(a) Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies).

(b) "Ind AS estimates as at 1 April 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Investment in equity instruments carried at FVTPL or FVOCI; and
- Impairment of financial assets based on expected credit loss model."

(c) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

C. Transition to Ind AS - Reconciliations

The following reconciliations provide a quantification of the effect of significant differences arising from the transition from previous GAAP to Ind AS in accordance with Ind AS 101:

- I. Reconciliation of Balance sheet as at April 1, 2016 and March 31, 2017
- II. Reconciliation of Statement of total Comprehensive Income for the period ended March 31, 2017
- III. Reconciliation of Equity as at April 1, 2016 and March 31, 2017
- IV. Impact on cash flow statement for the period ended March 31, 2017

The presentation requirements under Previous GAAP differs from Ind AS and hence Previous GAAP information has been regrouped for ease of reconciliation with Ind AS. The Regrouped Previous GAAP information is derived from the Financial Statements of the Company prepared in accordance with Previous GAAP.

IV Impact on cash flow statement for the period ended March 31, 2017

There were no material differences between the Statement of Cash Flows presented under Ind AS and the Previous GAAP.

Notes to first time adoption

Note 1: Proposed Dividend

Under the previous GAAP, dividend proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as subsequent events. Accordingly, provision for proposed dividend including dividend distribution tax was recognised as liability. Under Ind AS, such dividends are recognised when the same is approved by the shareholders in the general meeting.

Notes to financial statements for the year ended March 31, 2018

Note 2: Remeasurement of post employment benefit obligations

Under the previous GAAP, cost relating to post employment benefit obligations including actuarial gain/losses were recognised in Profit & Loss. Under Ind AS, actuarial gain/losses on the net defined benefit liability are recognised in other comprehensive income instead of profit & loss.

Note 3: Fair Valuation of Investments

Under previous GAAP, investment in equity instruments were classified into long term and current investments. Long term investments were carried at cost less provision other than temporary in nature. Current investments were carried at lower of cost or fair value. Under Ind AS, these investments are required to be measured at fair value either through OCI (FVTOCI) or Through Profit & loss (FVTPL). The company has opted to fair value these investments through Profit & loss.

Note 4: Share based payments

Ind AS requires the fair value of the share options to be determined using an appropriate pricing model recognised over the vesting period. An additional expense has been recognised in Consolidated Statement of Profit and Loss for the year ended 31st March, 2017. Share options which were granted before and still vesting at 1st April, 2016, have been recognised as a separate component of equity in Equity settled share based payment reserve against retained earnings at 1st April, 2016.

Note 5: Financial liabilities at amortised cost

Under previous GAAP, certain financial liabilities - Deposits received for leased premises were shown at their transaction amount. Under Ind AS those are measured at fair value at amortised cost by applying effective interest rate method.

Note 6: Fair Valuation of Foreign exchange forward contracts

Under Ind AS, foreign exchange forward contracts are mark-to-market as at Balance Sheet date and unrealised net gain or loss is recognised in profit and loss statement. Derivative assets and derivative liabilities are presented on gross basis.

Note 7: Trade Receivables

Under Indian GAAP, Company has recognised specific amount towards impairment of Trade receivables on the basis of incurred losses. Under Ind AS, impairment allowance has been recognised based on Expected Credit Loss basis (ECL).

Note 8: Deferred taxes

Under previous GAAP, deferred taxes were recognised based on Profit & loss approach i.e. tax impact on difference between the accounting income and taxable income. Under Ind AS, deferred tax is recognised by following balance sheet approach i.e. tax impact on temporary difference between the carrying value of asset and liabilities in the books and their respective tax base.

- 44 The Company is yet to receive balance confirmations in respect of certain financial assets and financial liabilities. The Management does not expect any material difference affecting the current year's financial statements due to the same.
- 45 The Company has invested ₹1,534.03 lakhs (Previous Year ₹1,534.03) in its Wholly Owned Subsidiary viz. CyberTech Systems and Software Inc., USA, which has accumulated losses of ₹1,374.45 (Previous Year 1,457.53) as at the year end. However, being a long term and strategic investment, there is a reasonable certainty that there will be no diminution in the value of this investment, and therefore, no provisioning has been considered necessary.

IND AS 115 - Revenue from Contracts with Customers

MCA has notified the Companies (Indian Accounting Standards) Amended Rules, 2018 ("amended rules"). As per the amended rules, Ind AS 115 "Revenue from contracts with customers" supersedes Ind AS 11, "Construction contracts" and Ind AS 18, "Revenue" and is applicable for all accounting periods commencing on or after 1 April 2018. Ind AS 115 introduces a new framework of five step model for the analysis of revenue transactions. The model specifies that revenue should be recognised when (or as) an entity transfer control of goods or services to a customer at the amount to which the entity expects to be entitled. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The new revenue standard is applicable to the Company from 1 April 2018.

Ind AS 21 - Foreign currency transactions and advance consideration:

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 effective from April 1, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency.

- 47 The financial statements were approved for issue by the Board of Directors on May 09, 2018.
- 48 The previous year's figures have been re-grouped / re-classified wherever required to confirm to current period's classification.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF CYBERTECH SYSTEMS & SOFTWARE LIMITED

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying Consolidated financial statements of CYBERTECH SYSTEMS & SOFTWARE LIMITED ("the Holding Company" and a subsidiary collectively referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash flows, the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Consolidated Ind AS Financial Statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Consolidated Ind AS financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act and relevant rules thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Consolidated Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Consolidated Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS financial statements give the information required by the Act, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Consolidated Ind AS, of the state of affairs of the Company as at 31st March, 2018 and its profit including other comprehensive income, its cash flows and its changes in equity for the year ended on that date.

Other Matters

1. Opening balances have been considered based on the audited financial statements prepared under previous Generally Accepted Accounting Practices (Previous GAAP) issued by the other auditors whose unqualified audit report dated 10th May, 2017 have been furnished to us. The difference arises from transition from previous GAAP to Ind AS have been derived from such audited financial statements.
2. We did not audit the financial statements of a subsidiary whose financial statements reflect total assets of ₹ 2,835.62 Lakh as at 31st March, 2018 and total revenue for the year ended 31st March, 2018 of ₹ 7,457.94 Lakh and net cash flows amounting to (₹ 153.18 Lakh) for the year ended on that date, as considered in consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the subsidiary, and our report in terms of sub-sections (3) (11) of Section 143 of the Act, insofar as it relates to the aforesaid subsidiary, is based solely on the report of the other auditor.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (i) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - (ii) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - (iii) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - (iv) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (v) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2018 and taken on record by the Board of Directors of the Holding Company, none of the directors are disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (vi) With respect to the adequacy of the internal financial controls over financial reporting of Holding Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - (vii) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated Ind AS financial statements disclosed the impact of pending litigations on the consolidated financial position of the Group—Refer Note No 31 to the consolidated financial statements.
 - ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Parent Company.

“ANNEXURE A”**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31st March, 2018, we have audited the internal financial controls over financial reporting of CYBERTECH SYSTEMS & SOFTWARE LIMITED (hereinafter referred to as “the Holding Company” and a subsidiary collectively referred to as “the Group”).

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Holding Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company have broadly, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

- (i) Certain financial assets and liabilities are measured at Fair value (Refer note no.- 1(B)(vii))
- (ii) Defined benefit employee plan - Refer note no. 1(B)(xi)
- (iii) Derivative Financial instruments Refer note no.- 1(B)(vii)

The accounting policies are applied consistently to all the periods presented in the financial statements. All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

The Consolidated financial statements are presented in INR, the functional currency of the Group. Rounding of amounts All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Group and its subsidiaries as at March 31, 2018.

Subsidiaries

Subsidiaries are all entities over which the Group has control. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if and only if the Group has

- (a) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- (b) Exposure, or rights, to variable returns from its involvement with the investee
- (c) The ability to use its power over the investee to affect its returns

Consolidation of a subsidiary begins when the group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

Consolidation Procedure

Subsidiaries

(a) Combine, on line by line basis like items of assets, liabilities, equity, income, expenses and cash flows of the Parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.

(b) Offset (eliminate) the carrying amount of the Parent's investment in each subsidiary and the Parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill

c) Eliminate in full intra-group assets and liabilities, equity, income, expenses and Cash flows relating to transactions between entities of the group (profits or losses resulting from intra-group transactions that are recognised in assets, such as inventory and property, plant and equipment (PPE), are eliminated in full). Intra-group losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intra-group transactions.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Parent Group and to the noncontrolling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Parent Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies

Changes in the Group's ownership interest in existing subsidiaries:

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the group.

When the Group loses control of a subsidiary, a gain or loss is recognised in consolidated statement of profit and loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any noncontrolling interests.

(ii) Use of Estimates and judgments:

The preparation of the financial statements requires the Management to make, judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates. The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the management and are based on historical experience and various other assumptions and factors (including expectations of future events) that the management believes to be reasonable under the existing circumstances. Actual results may differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

Critical accounting judgements and key source of estimation uncertainty

The Group is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. The estimates and underlying assumptions are reviewed on an on-going basis.

- (a) Recognition and measurement of defined benefit obligations, key actuarial assumptions - Refer note no. 1(B)(xi)
- (b) Estimation of current tax expenses and payable - Refer note no. 1(B)(xii)
- (c) Derivative Financial instruments - Refer note no. 1(B)(xi)

(iii) Property, plant and equipment (PPE)

Property, plant and equipment is stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable costs of bringing the asset to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure are included in the assets carrying amount or recognized as a separate asset, as appropriate only if it is probable that the future economic benefits associated with the item will flow to the Group and that the cost of the item can be reliably measured.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital working-progress".

(iv) Intangible assets

Intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

(v) Depreciation and Amortization:**(a) Property plant and equipment (PPE)**

Depreciation is provided on a pro-rata basis on the straight line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

(b) Intangible assets

The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives.

The amortisation period and the amortisation method for finite life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate. For indefinite life intangible assets, the assessment of indefinite life is reviewed annually to determine whether it continues, if not, it is impaired or changed prospectively based on revised estimates.

(vi) Financial Instruments:**Financial assets - Initial recognition:**

Financial assets are recognised when the Group becomes a party to the contractual provisions of the instruments. On initial recognition, a financial asset is recognised at fair value, in case of Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost are recognised in the statement of profit and loss. In other cases, the transaction cost are attributed to the acquisition value of the financial asset.

Subsequent measurement:

Financial assets are subsequently classified as measured at:

- amortised cost
- fair value through profit & loss (FVTPL)
- fair value through other comprehensive income (FVTOCI)

The above classification is being determined considering the:

- (a) the entity's business model for managing the financial assets and
- (b) the contractual cash flow characteristics of the financial asset.

Financial assets are not reclassified subsequent to their recognition, except if and in the period the group changes its business model for managing financial assets.

(i) Measured at amortised cost:

Financial assets are subsequently measured at amortised cost, if these financial assets are held within a business module whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified date to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Measured at fair value through other comprehensive income (FVTOCI):

Financial assets are measured at FVTOCI, if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

(iii) Measured at fair value through profit or loss (FVTPL):

Financial assets other than equity instrument are measured at FVTPL unless it is measured at amortised cost or at FVTOCI on initial recognition. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised in the Statement of Profit and Loss.

Equity instruments:

On initial recognition, the Group can make an irrevocable election (on an instrument-by instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to Statement of Profit and Loss on disposal of the investments. Dividends on these investments in equity instruments are recognised in Statement of Profit and Loss when the Group's right to

receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognised in Statement of Profit and Loss are included in the 'Other income'.

Impairment

The Group recognises a loss allowance for Expected Credit Losses (ECL) on financial assets that are measured at amortised cost and at FVOCI. The credit loss is difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. This is assessed on an individual or collective basis after considering all reasonable and supportable including that which is forward looking.

The Group's trade receivables or contract revenue receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall, being simplified approach for recognition of impairment loss allowance.

Under simplified approach, the Group does not track changes in credit risk. Rather it recognizes impairment loss allowance based on the lifetime ECL at each reporting date right from its initial recognition. The Group uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For financial assets other than trade receivables, the Group recognises 12 months expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. If, in a subsequent period, credit quality of the instrument improves such that there is no longer significant increase in credit risks since initial recognition, then the Group reverts to recognizing impairment loss allowance based on 12 months ECL. The impairment losses and reversals are recognised in Statement of Profit and Loss. For equity instruments and financial assets measured at FVTPL, there is no requirement of impairment testing.

Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers rights to receive cash flows from an asset, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement.

In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Financial Liabilities

Initial Recognition and measurement

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments. Financial liabilities are initially recognised at fair value net of transaction costs for all financial liabilities not carried at fair value through profit or loss.

The Group's financial liabilities includes trade and other payables, loans and borrowings including bank overdrafts.

Subsequent measurement

Financial liabilities measured at amortised cost are subsequently measured at using Effective Interest Rate (EIR) method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Loans & Borrowings:

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using EIR method. Gains and losses are recognized in profit & loss when the liabilities are derecognized as well as through EIR amortization process.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

Derivative financial instruments

The Group uses derivative financial instruments, such as forward foreign exchange contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value, with changes in fair value recognised in Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(vii) Fair Value Measurement

The Group measures financial instruments, such as, derivatives, investments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- (i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- (ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- (iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above

(viii) Cash and Cash Equivalents:

Cash and Cash equivalents include cash and Cheque in hand, bank balances, demand deposits with banks and other short-term highly liquid investments that are readily convertible to known amounts of cash & which are subject to an insignificant risk of changes in value where original maturity is three months or less.

(ix) Foreign Currency Transactions:**a) Initial Recognition**

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss of the year.

b) Measurement of Foreign Currency Items at the Balance Sheet Date

Foreign currency monetary items of the Group are restated at the closing exchange rates. Non monetary items are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising out of these transactions are charged to the Statement of Profit and Loss.

(x) Revenue Recognition:

Revenue is measured at the value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates, discounts, loyalty discount, and amounts collected on behalf of third parties.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Group and specific criteria have been met for each of the Group's activities as described below.

Rendering of Services

Income from software development, consulting and customer support services is recognized as and when rendered in accordance with the terms of the contract. Revenue from fixed price contracts with milestone billings and fixed time frame contracts are recognized as per the proportionate completion method.

Interest

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable and based on Effective interest rate method.

Dividend

Dividend Income is recognized when right to receive the same is established.

(xi) Employee Benefits:

The Group has provides following post-employment plans:

- (a) Defined benefit plans such a gratuity
- (b) Defined contribution plans such as Provident fund

a) Defined-benefit plan:

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plan is the present value of defined benefit obligations at the end of the reporting period less fair value of plan assets. The defined benefit obligations is calculated annually by actuaries through actuarial valuation using the projected unit credit method.

The Group recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- (a) Service costs comprising current service costs, past-service costs, gains and losses on curtailment and non-routine settlements; and
- (b) Net interest expense or income

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and fair value of plan assets. This cost is included in employee benefit expenses in the Statement of Profit & Loss.

Re-measurement comprising of actuarial gains and losses arising from

- (a) Re-measurement of Actuarial(gains)/losses
- (b) Return on plan assets, excluding amount recognized in effect of asset ceiling
- (c) Re-measurement arising because of change in effect of asset ceiling

are recognised in the period in which they occur directly in 'Other comprehensive income'. Re-measurement are not reclassified to profit or loss in subsequent periods.

Ind AS 19 requires the exercise of judgment in relation to various assumptions including future pay rises, inflation and discount rates and employee and pensioner demographics. The Group determines the assumptions in conjunction with its actuaries, and believes these assumptions to be in line with best practice, but the application of different assumptions could have a significant effect on the amounts reflected in the income statement, other comprehensive income and balance sheet. There may be also interdependency between some of the assumptions.

b) Defined-contribution plan:

Under defined contribution plans, provident fund, the Group pays pre-defined amounts to separate funds and does not have any legal or informal obligation to pay additional sums. Defined Contribution plan comprise of contributions to the employees' provident fund with the government, superannuation fund and certain state plans like Employees' State Insurance and Employees' Pension Scheme. The Group's payments to the defined contribution plans are recognised as expenses during the period in which the employees perform the services that the payment covers.

c) Other employee benefits:

- (a) Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the obligation as at the Balance sheet date determined based on an actuarial valuation.
- (b) Undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the period when the employee renders the related services.

(xii) Taxes on Income:

Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

Current tax is based on taxable profit for the year. Taxable profit is different from accounting profit due to temporary differences between accounting and tax treatments, and due to items that are never taxable or tax deductible. Tax provisions are included in current liabilities. Interest and penalties on tax liabilities are provided for in the tax charge. The Group offsets, the current tax assets and liabilities (on a year on year basis) where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis or to realise the assets and liabilities on net basis.

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements. Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred tax assets are not recognised where it is more likely than not that the assets will not be realised in the future. The carrying amount of deferred income tax assets is reviewed at each

reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Minimum Alternative Tax ('MAT') credit is recognised as an asset only when and to the extent there is convincing evidence that the Group will pay normal income-tax during the specified period. The Group reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that Group will pay normal income-tax during the specified period.

(xiii) Borrowing Costs:

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized as a part of Cost of that assets, during the period till all the activities necessary to prepare the Qualifying assets for its intended use or sale are complete during the period of time that is required to complete and prepare the assets for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are recognized as an expense in the period in which they are incurred.

(xiv) Earnings Per Share:

Basic earnings per shares are calculated by dividing the net profit or loss after tax for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to the equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

(xv) Leases:

Where the Group is Lessee

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on accrual basis as per the terms of agreements entered with the counter parties.

Where the Group is Lessor

Leases in which the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in property, plant and equipment. The Group recognizes lease rentals from the property leased out, on accrual basis as per the terms of agreements entered with the counter parties. Costs, including depreciation, are recognized as an expense in the Statement of Profit and Loss.

(xvi) Unbilled Revenue

Revenue recognized over and above the billings on a customer is classified as "unbilled revenue".

(xvii) Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognised if, as a result of a past event, the group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources or an obligation for which the future outcome cannot be ascertained with reasonable certainty. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognized nor disclosed in financial statements.

D. Assumptions

With the objective of presenting the plan assets and plan liabilities of the defined benefits plans at their fair value on the balance sheet, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.

The significant actuarial assumptions were as follows:

	As at March 31, 2018	As at March 31, 2017
Financial Assumptions		
Discount rate	7.85%	7.20%
Salary Escalation Rate	2.00%	2.00%

E. Sensitivity

The sensitivity of the overall plan liabilities to changes in the weighted key assumptions are:

	Impact on defined benefit obligation		
	Change in assumption	Increase in assumption	Decrease in assumption
Discount rate	1.00%	(14.53)	17.41
Salary Escalation Rate	1.00%	18.11	(15.46)

The sensitivity analyses above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity to the assumption, the same method used to calculate the liability recognised in the balance sheet has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

37 Financial Risk Management

Financial risk management objectives and policies:

The Company's business activities exposed it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Group's senior Management has the overall responsibility for establishing and governing the Company's risk management framework.

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

Risk	Exposure arising from	Measurement	Management
Market Risk - Interest rate	Long-term borrowings at variable rates	Sensitivity analysis	Interest rate swaps
Market Risk - Foreign exchange	Financial assets and liabilities	Cash flow forecasting Sensitivity analysis	Hedging, Forex planning
Credit risk	Cash and cash equivalents, trade receivables, Investments, loans and other financial assets measured at fair /amortised cost.	Ageing analysis/ Credit ratings	Diversification in various class of assets, credit limits and letters of credit
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities; working capital management

(A) Market Risk- Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. The Group is having short term borrowings from banks.

(i) Exposure to interest rate risk - Financial liabilities

(₹ in Lakhs)

Particulars	As at March 31, 2018	As at March 31, 2017	As at April 01, 2016
Borrowings bearing variable rate of interest - Cash credits - short term in nature	1,092.54	996.45	1,064.67

Hence, the Group is not significantly exposed to the interest rate risk as working capital facility are, as per contractual terms, primarily of short term in nature.

(B) Market Risk- Foreign currency risk.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group has foreign currency trade receivables and is therefore exposed to foreign exchange risk. The exchange rates have been volatile in the recent years and may continue to be volatile in the future. Hence the operating results and financials of the Group may be impacted due to volatility of the rupee against foreign currencies.

(C) Credit risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. The Group is exposed to credit risk from its operating activities (trade receivables) and from its financing activities including investments in mutual funds, deposits with banks and financial institutions and debentures and bonds, foreign exchange transactions and financial instruments.

To manage the credit risk from trade receivables, the Group periodically assess financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly. The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period.

Credit risk from investments is managed by the Group's treasury in accordance with the board approved policy and limits.

To assess whether there is a significant increase in credit risk the Group compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- Actual or expected significant adverse changes in business,
- Actual or expected significant changes in the operating results of the counterparty,
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- Significant increase in credit risk on other financial instruments of the same counterparty,
- Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees

(D) Liquidity Risk

Liquidity risk is defined as the risk that the Group will not be able to settle or meet its obligations on time, or at a reasonable price. The Group's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related such risk are overseen by senior management. Management monitors the Group's net liquidity position through rolling forecasts on the basis of expected cash flows. The Group's objective is to maintain at all times, optimum levels of liquidity to meet its obligations.

38 Financial instruments

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions are used to estimate the fair values:

1. Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short term maturities of these instruments.
2. Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments is not materially different from their carrying amounts.

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

The Management assessed that fair value of cash and cash equivalents, trade receivables, investments in term deposits, loans, other financial assets (except derivative financial instruments), trade payables, and other financial liabilities (except derivative financial instruments) is considered to be equal to the carrying amount of these items due to their short-term nature.

Notes to financial statements for the year ended March 31, 2018

c. Fair value estimation

For financial instruments measured at fair value in the Balance Sheet, a three level fair value hierarchy is used that reflects the significance of inputs used in the measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

- Level 1: quoted prices for identical instruments
- Level 2: directly or indirectly observable market inputs, other than Level 1 inputs; and
- Level 3: inputs which are not based on observable market data.

For assets and liabilities which are carried at fair value, the classification of fair value calculations by category is summarised below:

	Level 1	Level 2	Level 3	(₹ in Lakhs) Total
As at April 01, 2016

43 First-time adoption of Ind AS

The Group has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from 1st April, 2017, with a transition date of 1st April, 2016. The adoption of Ind AS has been carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and effective for the first Ind AS financial statements for the year ended March 31, 2018 be applied retrospectively and consistently for all financial years presented. However, in preparing these Ind AS financial statements, the Group has availed of certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and Previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity).

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A. Optional Exemptions

(a) Deemed Cost

Ind AS 101 permits to measure all its property, plant & equipment and Intangible assets at their previous GAAP carrying value i.e. being deemed cost represented by Gross Block reduced by accumulated depreciation on April 01, 2016.

(b) Designation of previously recognised financial instruments

Paragraph D19B of Ind AS 101 gives an option to an entity to designate investments in equity instruments at FVOCI on the basis of the facts and circumstances at the date of transition to Ind AS. The company has opted to apply this exemption for its investment in equity Investments.

B. Mandatory Exceptions

(a) Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies).

Ind AS estimates as at 1 April 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Investment in equity instruments carried at FVTPL or FVOCI; and
- Impairment of financial assets based on expected credit loss model.

(c) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

C. Transition to Ind AS - Reconciliations

The following reconciliations provide a quantification of the effect of significant differences arising from the transition from previous GAAP to Ind AS in accordance with Ind AS 101:

- I. Reconciliation of Balance sheet as at April 1, 2016 and March 31, 2017
- II. Reconciliation of Statement of total Comprehensive Income for the period ended March 31, 2017
- III. Reconciliation of Equity as at April 1, 2016 and March 31, 2017
- IV. Impact on cash flow statement for the period ended March 31, 2017

The presentation requirements under Previous GAAP differs from Ind AS and hence Previous GAAP information has been regrouped for ease of reconciliation with Ind AS. The Regrouped Previous GAAP information is derived from the Financial Statements of the Group prepared in accordance with Previous GAAP.

IV Impact on cash flow statement for the period ended March 31, 2017

There were no material differences between the Statement of Cash Flows presented under Ind AS and the Previous GAAP.

Notes to first time adoption

Note 1: Proposed Dividend

Under the previous GAAP, dividend proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as subsequent events. Accordingly, provision for proposed dividend including dividend distribution tax was recognised as liability. Under Ind AS, such dividends are recognised when the same is approved by the shareholders in the general meeting.

Note 2: Remeasurement of post employment benefit obligations

Under the previous GAAP, cost relating to post employment benefit obligations including actuarial gain/losses were recognised in Profit & Loss. Under Ind AS, actuarial gain/losses on the net defined benefit liability are recognised in other comprehensive income instead of profit & loss.

Notes to financial statements for the year ended March 31, 2018

Note 3: Fair Valuation of Investments

Under previous GAAP, investment in equity instruments were classified into long term and current investments. Long term investments were carried at cost less provision other than temporary in nature. Current investments were carried at lower of cost or fair value. Under Ind AS, these investments are required to be measured at fair value either through OCI (FVTOCI) or Through Profit & loss (FVTPL). The Group has opted to fair value these investments through Profit & loss.

Note 4: Share based payments

Ind AS requires the fair value of the share options to be determined using an appropriate pricing model recognised over the vesting period. An additional expense has been recognised in Consolidated Statement of Profit and Loss for the year ended 31st March, 2017. Share options which were granted before and still vesting at 1st April, 2016, have been recognised as a separate component of equity in Equity settled share based payment reserve against retained earnings at 1st April, 2016.

Note 5: Financial liabilities at amortised cost

Under previous GAAP, certain financial liabilities - Deposits received for leased premises were shown at their transaction amount. Under Ind AS those are measured at fair value at amortised cost by applying effective interest rate method.

Note 6: Fair Valuation of Foreign exchange forward contracts

Under Ind AS, foreign exchange forward contracts are mark-to-market as at Balance Sheet date and unrealised net gain or loss is recognised in profit and loss statement. Derivative assets and derivative liabilities are presented on gross basis.

Note 7: Foreign currency translation

Under Previous GAAP, the Group recognised translation differences on foreign operations in a separate component of equity. Under Ind AS, the exchange differences on account of translation of foreign operations has been accounted through other comprehensive income.

Note 8: Trade Receivables

Under Indian GAAP, Group has recognised specific amount towards impairment of Trade receivables on the basis of incurred losses. Under Ind AS, impairment allowance has been recognised based on Expected Credit Loss basis (ECL).

Note 9: Deferred taxes

Under previous GAAP, deferred taxes were recognised based on Profit & loss approach i.e. tax impact on difference between the accounting income and taxable income. Under Ind AS, deferred tax is recognised by following balance sheet approach i.e. tax impact on temporary difference between the carrying value of asset and liabilities in the books and their respective tax base.

- 44 The Group is yet to receive balance confirmations in respect of certain financial assets and financial liabilities. The Management does not expect any material difference affecting the current year's financial statements due to the same.

45 Recent accounting pronouncements

IND AS 115 - Revenue from Contracts with Customers

MCA has notified the Companies (Indian Accounting Standards) Amended Rules, 2018 ("amended rules"). As per the amended rules, Ind AS 115 "Revenue from contracts with customers" supersedes Ind AS 11, "Construction contracts" and Ind AS 18, "Revenue" and is applicable for all accounting periods commencing on or after April 1, 2018. Ind AS 115 introduces a new framework of five step model for the analysis of revenue transactions. The model specifies that revenue should be recognised when (or as) an entity transfer control of goods or services to a customer at the amount to which the entity expects to be entitled. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The new revenue standard is applicable to the Group from 1 April 2018.

Ind AS 21 - Foreign currency transactions and advance consideration:

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 effective from April 1, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency.

- 46 The financial statements were approved for issue by the Board of Directors on May 09, 2018.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF CYBERTECH SYSTEMS & SOFTWARE INC. (USA)

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone financial statements of **CYBERTECH SYSTEMS & SOFTWARE INC. (USA)** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Cash Flows, the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act and relevant rules thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Act, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs of the Company as at 31st March, 2018 and its profit (including other comprehensive income), its cash flows and changes in equity for the year ended on that date.

Notes to financial statements for the year ended March 31, 2018

'NOTE '1'

SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Preparation of Financial Statements:

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting standards) Rules 2015 as amended from time to time and other related provisions of the Act.

These financial statements for the year ended 31st March, 2018 are the first financials with comparatives, prepared under Ind AS. For all previous periods including the year ended 31st March, 2017, the Company had prepared its financial statements in accordance with the accounting standards notified under Companies (Accounting Standard) Rule, 2006 (as amended) and other relevant provisions of the Act (hereinafter referred to as 'Previous GAAP') used for its statutory reporting requirement in India.

Refer Note 43 for the details of significant first-time adoption exemptions availed by the Company and an explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, performance and cash flows.

The financial statements of the Company are prepared on the accrual basis of accounting and Historical cost convention except for the following material items that has been measured at fair value as required by the relevant Ind AS:

- Certain financial assets and liabilities are measured at Fair value

The accounting policies are applied consistently to all the periods presented in the financial statements. All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

The financial statements are presented in US Dollar & Indian Rupee (INR).

2. Use of Estimates and judgments:

The preparation of the financial statements requires the Management to make, judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates. The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the management and are based on historical experience and various other assumptions and factors (including expectations of future events) that the management believes to be reasonable under the existing circumstances. Actual results may differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

Critical accounting judgements and key source of estimation uncertainty

The Company is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. The estimates and underlying assumptions are reviewed on an on-going basis.

3. Property, plant and equipment (PPE)

Property, plant and equipment is stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable costs of bringing the asset to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure Subsequent costs are included in the assets carrying amount or recognized as a separate asset, as appropriate only if it is probable that the future economic benefits associated with the item will flow to the Company and that the cost of the item can be reliably measured.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

4. Intangible assets

Intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

Notes to financial statements for the year ended March 31, 2018

5. Depreciation and Amortisation:

(a) Property plant and equipment (PPE)

Depreciation is provided on a pro-rata basis on the straight line method based on estimated useful life prescribed under Schedule II.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

(b) Intangible assets

The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives. The amortisation period and the amortisation method for finite life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate. For indefinite life intangible assets, the assessment of indefinite life is reviewed annually to determine whether it continues, if not, it is impaired or changed prospectively basis revised estimates.

6. Financial Instruments:

Financial assets - Initial recognition:

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. On initial recognition, a financial asset is recognised at fair value, in case of Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost are recognised in the statement of profit and loss. In other cases, the transaction cost are attributed to the acquisition value of the financial asset.

Subsequent measurement:

Financial assets are subsequently classified as measured at:

- amortised cost
- fair value through profit & loss (FVTPL)
- fair value through other comprehensive income (FVTOCI)

The above classification is being determined considering the:

- (a) the entity's business model for managing the financial assets and
- (b) the contractual cash flow characteristics of the financial asset.

Financial assets are not reclassified subsequent to their recognition, except if and in the period the group changes its business model for managing financial assets.

(i) Measured at amortised cost:

Financial assets are subsequently measured at amortised cost, if these financial assets are held within a business module whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified date to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Measured at fair value through other comprehensive income (FVTOCI):

Financial assets are measured at FVTOCI, if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

(iii) Measured at fair value through profit or loss (FVTPL):

Financial assets other than equity instrument are measured at FVTPL unless it is measured at amortised cost or at FVTOCI on initial recognition. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised in the Statement of Profit and Loss.

Equity instruments:

On initial recognition, the Company can make an irrevocable election (on an instrument-by instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for

Notes to financial statements for the year ended March 31, 2018

equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to Statement of Profit and Loss on disposal of the investments.

Dividends on these investments in equity instruments are recognised in Statement of Profit and Loss when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognised in Statement of Profit and Loss are included in the 'Other income' line item.

Impairment

The Company recognises a loss allowance for Expected Credit Losses (ECL) on financial assets that are measured at amortised cost and at FVOCI. The credit loss is difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. This is assessed on an individual or collective basis after considering all reasonable and supportable including that which is forward looking.

The Company's trade receivables or contract revenue receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall, being simplified approach for recognition of impairment loss allowance.

Under simplified approach, the Company does not track changes in credit risk. Rather it recognizes impairment loss allowance based on the lifetime ECL at each reporting date right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For financial assets other than trade receivables, the Company recognises 12-months expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. If, in a subsequent period, credit quality of the instrument improves such that there is no longer significant increase in credit risks since initial recognition, then the Company reverts to recognizing impairment loss allowance based on 12 months ECL. The impairment losses and reversals are recognised in Statement of Profit and Loss.

For equity instruments and financial assets measured at FVTPL, there is no requirement of impairment testing.

Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers rights to receive cash flows from an asset, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement.

In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Financial Liabilities

Initial Recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial liabilities are initially recognised at fair value net of transaction costs for all financial liabilities not carried at fair value through profit or loss.

The Company's financial liabilities includes trade and other payables, loans and borrowings including bank overdrafts.

Subsequent measurement

Financial liabilities measured at amortised cost are subsequently measured at using EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Loans & Borrowings:

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using EIR method. Gains and losses are recognized in profit & loss when the liabilities are derecognized as well as through EIR amortization process.

Financial Guarantee Contracts

Financial guarantee contracts issued by the Company are those contracts that requires a payment to be made or to reimburse the holder for a loss

Notes to financial statements for the year ended March 31, 2018

it incurs because the specified debtors fails to make payment when due in accordance with the term of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Derivative financial instruments

The Company uses derivative financial instruments, such as forward foreign exchange contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value, with changes in fair value recognised in Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

7. Fair Value Measurement

The Company measures financial instruments, such as, derivatives, investments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- (i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- (ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- (iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above

8. Cash and Cash Equivalents:

Cash and Cash equivalents include cash and Cheque in hand, bank balances, demand deposits with banks and other short-term highly liquid investments that are readily convertible to known amounts of cash & which are subject to an insignificant risk of changes in value where original maturity is three months or less.

9. Foreign Currency Transactions:

All assets and liabilities, both monetary and non-monetary, are translated at the closing rate while the income and expenses are translated at the average rate for the year. The resulting exchange differences have been accumulated in the Foreign Currency Translation Reserve.

10. Revenue Recognition:

Revenue is measured at the value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates, discounts, value added taxes and amounts collected on behalf of third parties.

Notes to financial statements for the year ended March 31, 2018

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and specific criteria have been met for each of the Company's activities as described below.

Rendering of Services

Income from software development, consulting and customer support services is recognized as and when rendered in accordance with the terms of the contract. Revenue from fixed price contracts with milestone billings and fixed time frame contracts are recognized as per the proportionate completion method.

11. Employee Benefits:

a) Compensation and Short-term employee benefits :

All employee benefits which are payable within twelve months of rendering the service are classified as short term employee benefits. Compensation are recognized at actual amounts due in the period in which the employee renders the related service. Vacation pay is recognized when taken and only limited amounts may be carried forward from year to year.

Associated Short-term Benefits include the following:

- i) Healthcare Insurance
- ii) Disability Insurance
- iii) Life Insurance

All Short-term Benefits Cost is shared between the Company and the Employee. The Company portion is recognized at actual amount in the period billed.

b) Other Short-term Benefits:

- Defined Contribution Plans:

Contributions are made annually to the Companies 401k Plan (Defined Contribution Plan) based on savings contributions made by employees. All Company contributions accrue to the benefit of and are 100% vested to employees when earned, based on their contribution and as defined by the US Safe Harbor contribution limitations. The Company contribution is recognized monthly on an accrual basis in the period that employee contributions are credited.

c) Long-term Post Retirement Benefits:

The Company does not sponsor a Defined Benefit or other Post Retirement Benefit Plan.

12. Taxes on Income:

Provision for tax is made on the basis of the estimated taxable income for the current accounting year in accordance with the relevant Income Tax laws of United States of America. The deferred tax for timing difference is accounted for, based on the tax rules and laws that have been substantively enacted as of the Balance Sheet date. Deferred tax assets arising out from the timing differences are recognized to the extent there is virtual/reasonable certainty that these would be realized in future.

13. Borrowing Cost:

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized as a part of Cost of that assets, during the period till all the activities necessary to prepare the Qualifying assets for its intended use or sale are complete during the period of time that is required to complete and prepare the assets for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are recognized as an expense in the period in which they are incurred.

14. Earnings Per Share:

Basic earnings per shares are calculated by dividing the net profit or loss after tax for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to the equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

Notes to financial statements for the year ended March 31, 2018

15. Leases:

Where the Company is Lessee

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on accrual basis as per the terms of agreements entered with the counter parties.

16. Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognised if, as a result of a past event, the group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources or an obligation for which the future outcome cannot be ascertained with reasonable certainty. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognized nor disclosed in financial statements.

22 Leases

Operating Lease:

The Company has taken commercial premises on lease basis, the agreements for which are mutually renewable /cancellable. The rental expenses in respect of operating lease are charged as rent under Note No. 18 under head 'Rent'.

23 Financial Risk Management

Financial risk management objectives and policies:

The Company's business activities exposed it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's Management has

Notes to financial statements for the year ended March 31, 2018

the overall responsibility for establishing and governing the Company's risk management framework. Financial risk management objectives and policies:

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

Risk	Exposure arising from	Measurement	Management
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities; working capital management
Credit risk	Cash and cash equivalents, trade receivables, Investments, loans and other financial assets measured at fair /amortised cost.	Ageing analysis/ Credit ratings	Diversification in various class of assets, credit limits and letters of credit
Market Risk - Foreign exchange	Financial assets and liabilities	Cash flow forecasting Sensitivity analysis	Hedging, Forex planning
Market Risk - Interest rate	Long-term borrowings at variable rates	Sensitivity analysis	Interest rate swaps

(A) Market Risk- Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. The Company is having short term borrowings from banks.

(i) Exposure to interest rate risk - Financial liabilities

Borrowings bearing variable rate of interest - Cash credits - short term in nature	-	-	-

Hence, the Company is not significantly exposed to the interest rate risk as working capital facility are, as per contractual terms, primarily of short term in nature.

(B) Market Risk- Foreign currency risk.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company has foreign currency trade receivables and is therefore exposed to foreign exchange risk. The exchange rates have been volatile in the recent years and may continue to be volatile in the future. Hence the operating results and financials of the Company may be impacted due to volatility of the rupee against foreign currencies.

(C) Credit risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. The Company is exposed to credit risk from its operating activities (trade receivables) and from its financing activities including investments in mutual funds, deposits with banks and financial institutions and debentures and bonds, foreign exchange transactions and financial instruments.

To manage the credit risk from trade receivables, the Company periodically assess financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly. The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period.

Credit risk from investments is managed by the Company's treasury in accordance with the board approved policy and limits.

To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forward-looking information such as:

- Actual or expected significant adverse changes in business,
- Actual or expected significant changes in the operating results of the counterparty,
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- Significant increase in credit risk on other financial instruments of the same counterparty,
- Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees

(D) Liquidity Risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time, or at a reasonable price. The Company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related such risk are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows. The Company's objective is to maintain at all times, optimum levels of liquidity to meet its obligations.

24 Financial instruments

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions are used to estimate the fair values:

1. Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short term maturities of these instruments.
2. Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments is not materially different from their carrying amounts.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Notes to financial statements for the year ended March 31, 2018

The carrying amounts and fair values of financial instruments by category are as follows:

The Management assessed that fair value of cash and cash equivalents, trade receivables, investments in term deposits, loans, other financial assets (except derivative financial instruments), trade payables, and other financial liabilities (except derivative financial instruments) is considered to be equal to the carrying amount of these items due to their short-term nature.

c. Fair value estimation

For financial instruments measured at fair value in the Balance Sheet, a three level fair value hierarchy is used that reflects the significance of inputs used in the measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

- Level 1: quoted prices for identical instruments
- Level 2: directly or indirectly observable market inputs, other than Level 1 inputs; and

Notes to financial statements for the year ended March 31, 2018

- Level 3: inputs which are not based on observable market data.

For assets and liabilities which are carried at fair value, the classification of fair value calculations by category is summarised below:

25 Capital risk management

(a) Risk management

The Company's objectives when managing capital are to

- ◀ safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other
- ◀ maintain an optimal capital structure to reduce the cost of capital

The Company will take appropriate steps in order to maintain, or if necessary adjust, its capital structure. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares.

26 First-time adoption of Ind AS

The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from 1st April, 2017, with a transition date of 1st April, 2016. The adoption of Ind AS has been carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and effective for the first Ind AS financial statements for the year ended 31st March, 2018, be applied retrospectively and consistently for all financial years presented. However, in preparing these Ind AS financial statements, the Company has availed of certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and Previous GAAP have been recognised directly in equity (retained earnings or another appropriate category of equity).

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A. Optional Exemptions

(a) Deemed Cost

Ind AS 101 permits to measure all its property, plant & equipment and Intangible assets at their previous GAAP carrying value i.e. being deemed cost represented by Gross Block reduced by accumulated depreciation on April 01, 2016.

(b) Investment in subsidiaries

The Company has opted para D14 and D15 and accordingly considered the Previous GAAP carrying amount of Investments as deemed cost as at the transition date.

(c) instruments

Paragraph D19B of Ind AS 101 gives an option to an entity to designate investments in equity instruments at FVOCI on the basis of the facts and circumstances at the date of transition to Ind AS. The company has opted to apply this exemption for its investment in equity Investments.

B. Mandatory Exceptions

(a) Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies).

- (b) Ind AS estimates as at 1 April 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

Notes to financial statements for the year ended March 31,2018

- Investment in equity instruments carried at FVTPL or FVOCI; and
- Impairment of financial assets based on expected credit loss model.

(c) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

C. Transition to Ind AS - Reconciliations

The following reconciliations provide a quantification of the effect of significant differences arising from the transition from previous GAAP to Ind AS in accordance with Ind AS 101:

I. Reconciliation of Balance sheet as at April 1, 2016 and March 31, 2017

II. Reconciliation of Statement of total Comprehensive

III. Reconciliation of Equity as at April 1, 2016 and March 31, 2017

IV. Impact on cash flow statement for the period ended March 31, 2017

The presentation requirements under Previous GAAP differs from Ind AS and hence Previous GAAP information has been regrouped for ease of reconciliation with Ind AS. The Regrouped Previous GAAP information is derived from the Financial Statements of the Company prepared in accordance with Previous GAAP.

IV Impact on cash flow statement for the period ended March 31, 2017

There were no material differences between the Statement of Cash Flows presented under Ind AS and the Previous GAAP.

Notes to Financial Statements for the Period ended 31st March 2018

Notes to first time adoption

Note 1: Proposed Dividend

Under the previous GAAP, dividend proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as subsequent events. Accordingly, provision for proposed dividend including dividend distribution tax was recognised as liability. Under Ind AS, such dividends are recognised when the same is approved by the shareholders in the general meeting.

Note 2: Remeasurement of post employment benefit obligations

Under the previous GAAP, cost relating to post employment benefit obligations including actuarial gain/losses were recognised in Profit & Loss. Under Ind AS, actuarial gain/losses on the net defined benefit liability are recognised in other comprehensive income instead of profit & loss.

Note 3: Fair Valuation of Investments

Under previous GAAP, investment in equity instruments were classified into long term and current investments. Long term investments were carried at cost less provision other than temporary in nature. Current investments were carried at lower of cost or fair value. Under Ind AS, these investments are required to be measured at fair value either through OCI (FVTOCI) or Through Profit & loss (FVTPL). The company has opted to fair value these investments through Profit & loss.

Note 4: Cash discount

Under previous GAAP, the Company accounted for revenue net of trade discounts, sales taxes and excise duties. Under Ind AS, the Company will recognise revenue at fair value of consideration received or receivable. Any sales incentive, discounts or rebates in any form including cash discounts given to customer will be considered as selling price reductions and accounted as reduction from revenue.

Note 5: Deferred taxes

Under previous GAAP, deferred taxes were recognised based on Profit & loss approach i.e. tax impact on difference between the accounting income and taxable income. Under Ind AS, deferred tax is recognised by following balance sheet approach i.e. tax impact on temporary difference between the carrying value of asset and liabilities in the books and their respective tax base.

- 27 The Company is yet to receive balance confirmations in respect of certain financial assets and financial liabilities. The Management does not expect any material difference affecting the current year's financial statements due to the same.

IND AS 115 - Revenue from Contracts with Customers

MCA has notified the Companies (Indian Accounting Standards) Amended Rules, 2018 ("amended rules"). As per the amended rules, Ind AS 115 "Revenue from contracts with customers" supersedes Ind AS 11, "Construction contracts" and Ind AS 18, "Revenue" and is applicable for all accounting periods commencing on or after 1 April 2018. Ind AS 115 introduces a new framework of five step model for the analysis of revenue transactions. The model specifies that revenue should be recognised when (or as) an entity transfer control of goods or services to a customer at the amount to which the entity expects to be entitled. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The new revenue standard is applicable to the Company from 1 April 2018.

Ind AS 21 - Foreign currency transactions and advance consideration:

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 effective from April 1, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency.

- 29 The financial statements were approved for issue by the Board of Directors on May 08, 2018.
- 30 The previous year's figures have been re-grouped / re-classified wherever required to confirm to current period's classification.
